-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3 and 6 are rejected under 35 USC §102(b). This rejection is set forth in the prior Office action mailed on April 17, 2008.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 4-5 are rejected under 35 USC §103(a). This rejection is set forth in the prior Office action mailed on April 17, 2008.

Response to Arguments

4. Applicant's arguments filed on July 17, 2008 have been fully considered but they are not persuasive.

Applicants argue 1) that the coating of the cited reference is not added at the supply roll, but at the roll coater (11) and 2) that the addition of the solution in the supply roll of the

reference would not form two ponds, but one. The examiner respectfully disagrees for the following reasons:

- As to (1), the claims do not require that the coating solution is added to the supply roll, but that the treatment solution is added onto the supply roll. The reference teaches that addition of a treatment solution to the supply roll and therefore reads on the claim(s) as claimed.
- As to (2), even though the reference is silent with respect to the use of the double pond, the figure seems to indicate that there is a double pond. This is more evident since the supply nozzle is positioned at the center of the roll and at an angle which is perpendicular to the surface of the roll. This configuration, even if the roll is rotating at high speed, would produce a pond at each side of the roll since some of the liquid would slip or backslash to the other side of the roll.

Applicants also argue unexpected results, but unexpected results, but unexpected results cannot overcome an anticipatory rejection.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37

CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
